

Dear Erasmus partner,

so far Faculty of electrical engineering of University of Ljubljana has offered courses to Erasmus students solely as individual consultations without truly provided lectures in English. We are fully aware that such situation is unacceptable, and we are committed to improve on it.

Starting with study year 2014/15 we are committed to offer a fine selection of four courses (two in each semester) as a full set of lectures in English. The details and descriptions of the courses are provided at the following two links:

http://www.fe.uni-lj.si/educational_process/information_for_foreign_students/winter_semester/

http://www.fe.uni-lj.si/educational_process/information_for_foreign_students/summer_semester/

With this regard, we are fully flexible and willing to change any already established Learning Agreements for Erasmus internships in year 2014/15 if your students would like to attend these courses.

Thank you and best regards,
Bostjan Murovec
